

Cucumber Salsa

Salsa is so versatile to use and make! You can throw most any vegetable in it and it'll work - look through your fridge to see what you need to use up and start chopping. Corn off the cob, squash, peaches, ANYTHING! Of course it's good cold, but it's also great in salads, warmed up on crostini, made into bruschetta, as a topping for chicken.... Get creative and try it out.

INGREDIENTS

- 2 medium cucumbers - peeled, seeded, and chopped
- 2 medium tomatoes, chopped
- ½ cup chopped green bell pepper
- 1 jalapeño pepper, seeded and minced
- 1 small onion, chopped
- 1 clove garlic, minced
- 2 tablespoons lime juice
- 1 teaspoon minced fresh parsley
- 2 teaspoons minced fresh cilantro
- ½ teaspoon salt
- 1 (12 ounce) package tortilla chips

You'll want a sharp knife for this recipe - there's lots of chopping! Bring your knives to Never a Dull Moment's tent and get em sharpened. They can do serrated knives too.

This project was funded in part by the Connecticut Department of Agriculture through the Community Investment Act.

DIRECTIONS

In a medium bowl, stir together the cucumbers, tomatoes, green pepper, jalapeno pepper, onion, garlic, lime juice, parsley, cilantro, and salt.

Cover and refrigerate for 1 hour. Serve with tortilla chips.
